

Astrocytes, fibrous

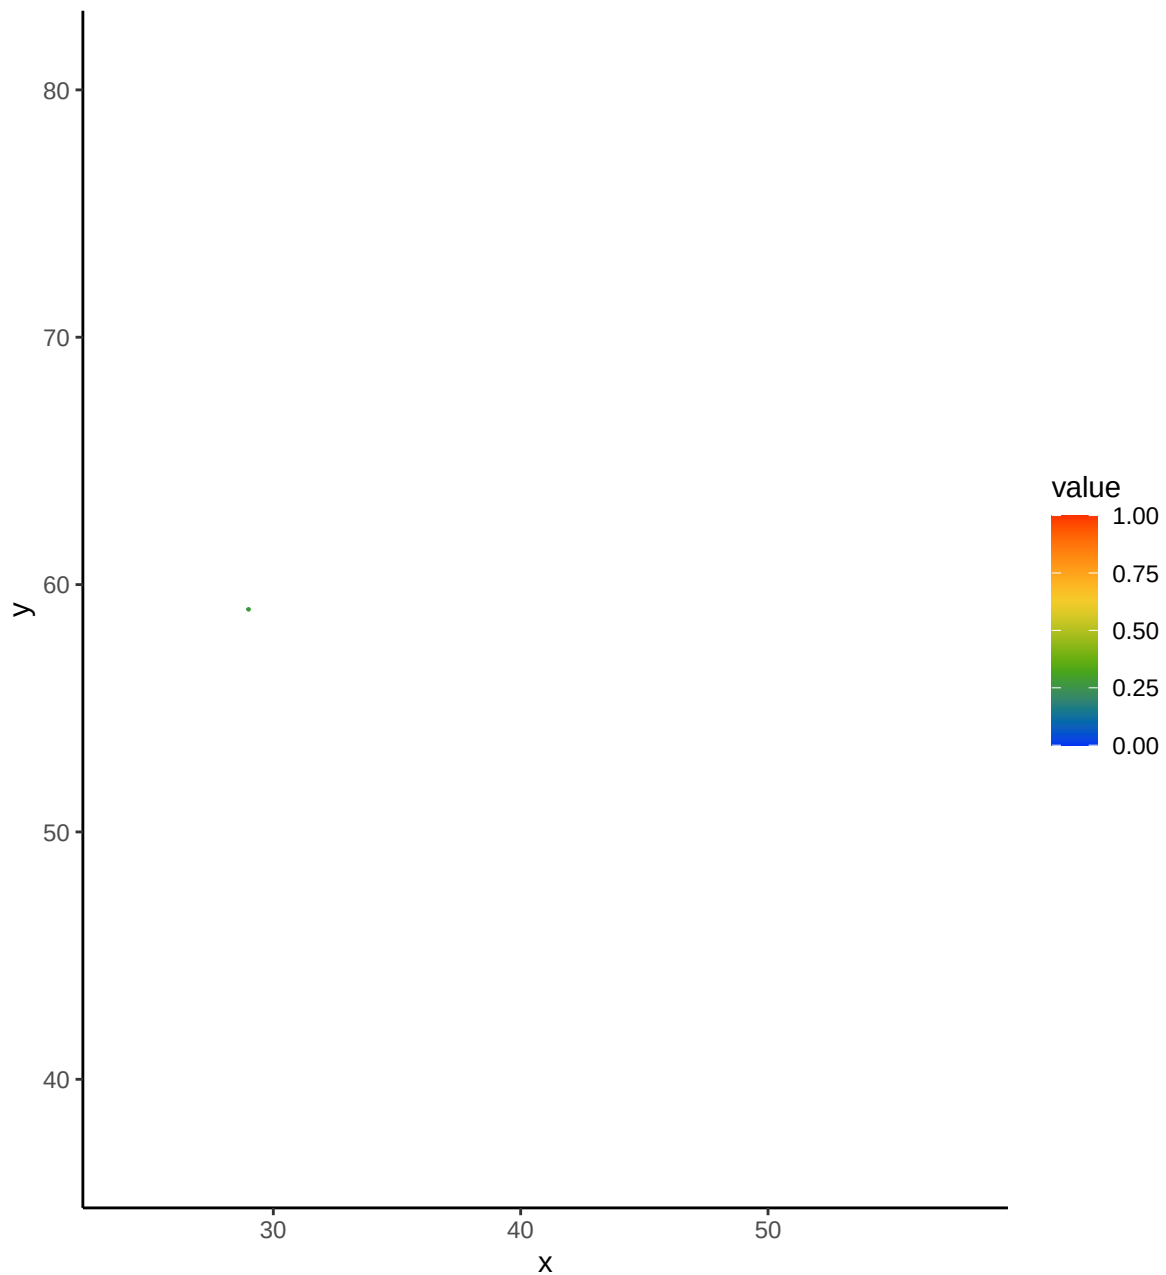

Astrocytes, reactive

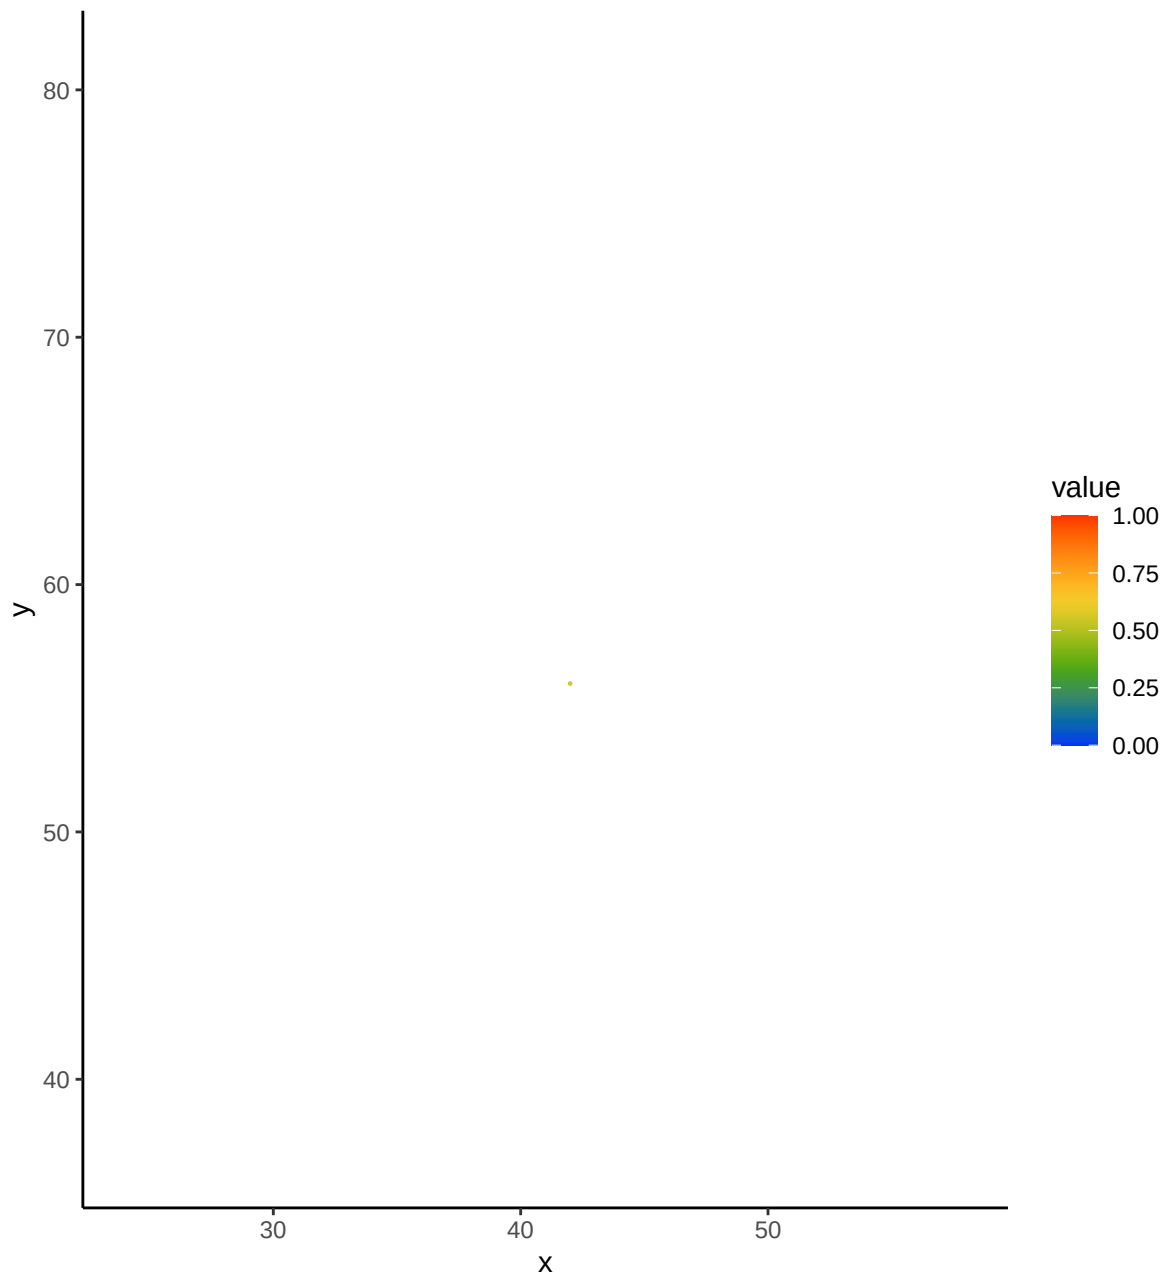

DE_Rreb1

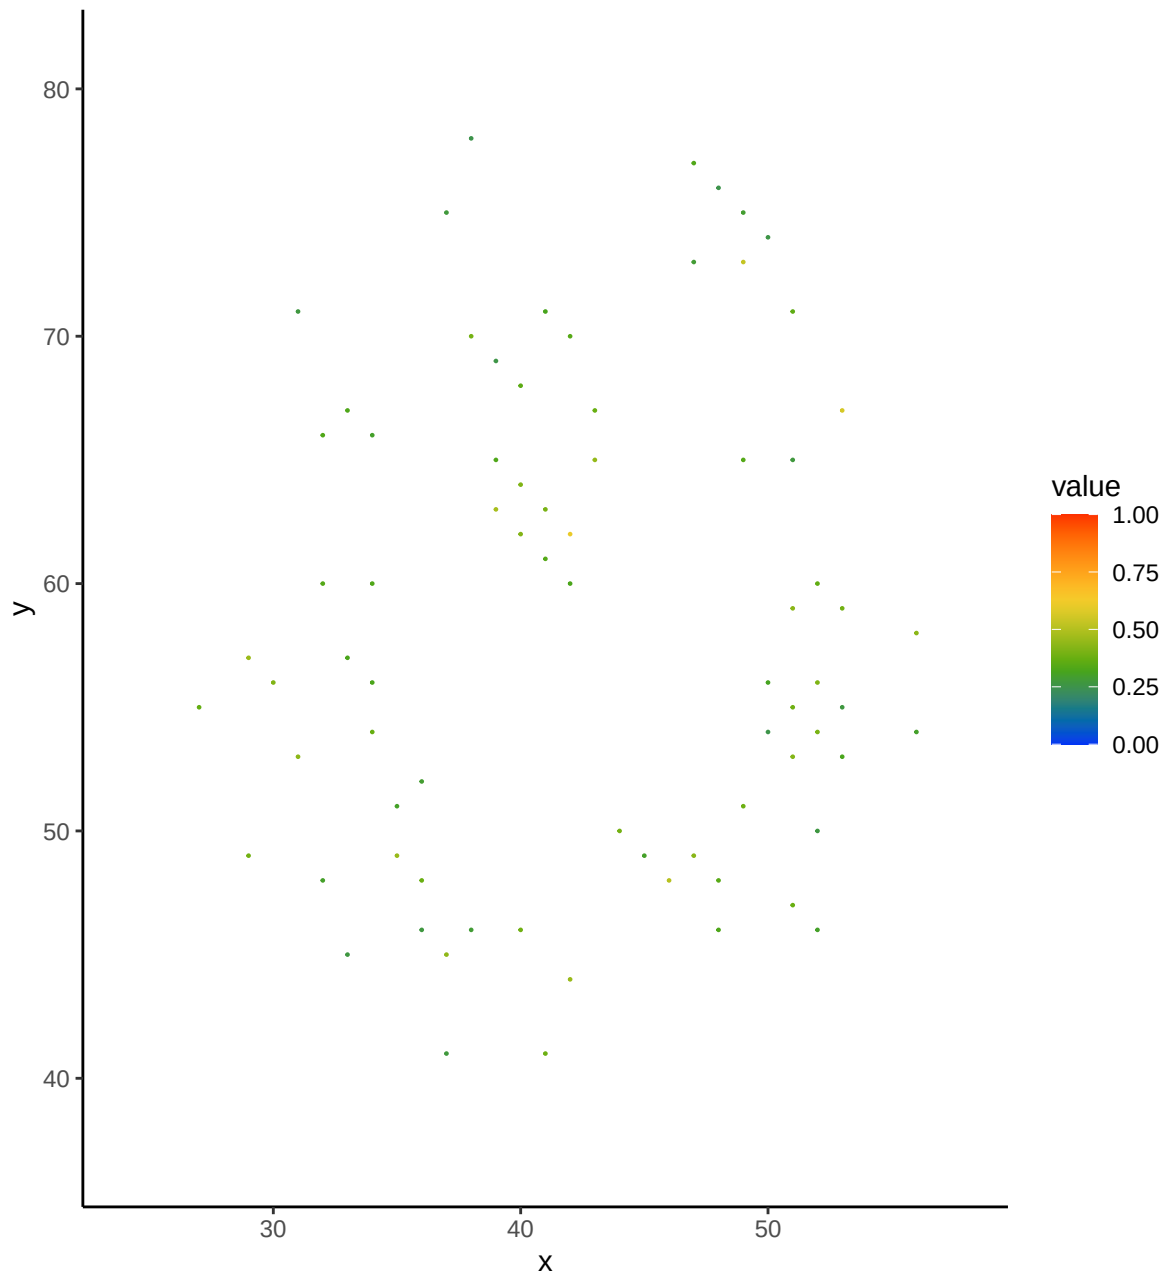

Differentiation-committed oligodendrocyte precursors (COPs)

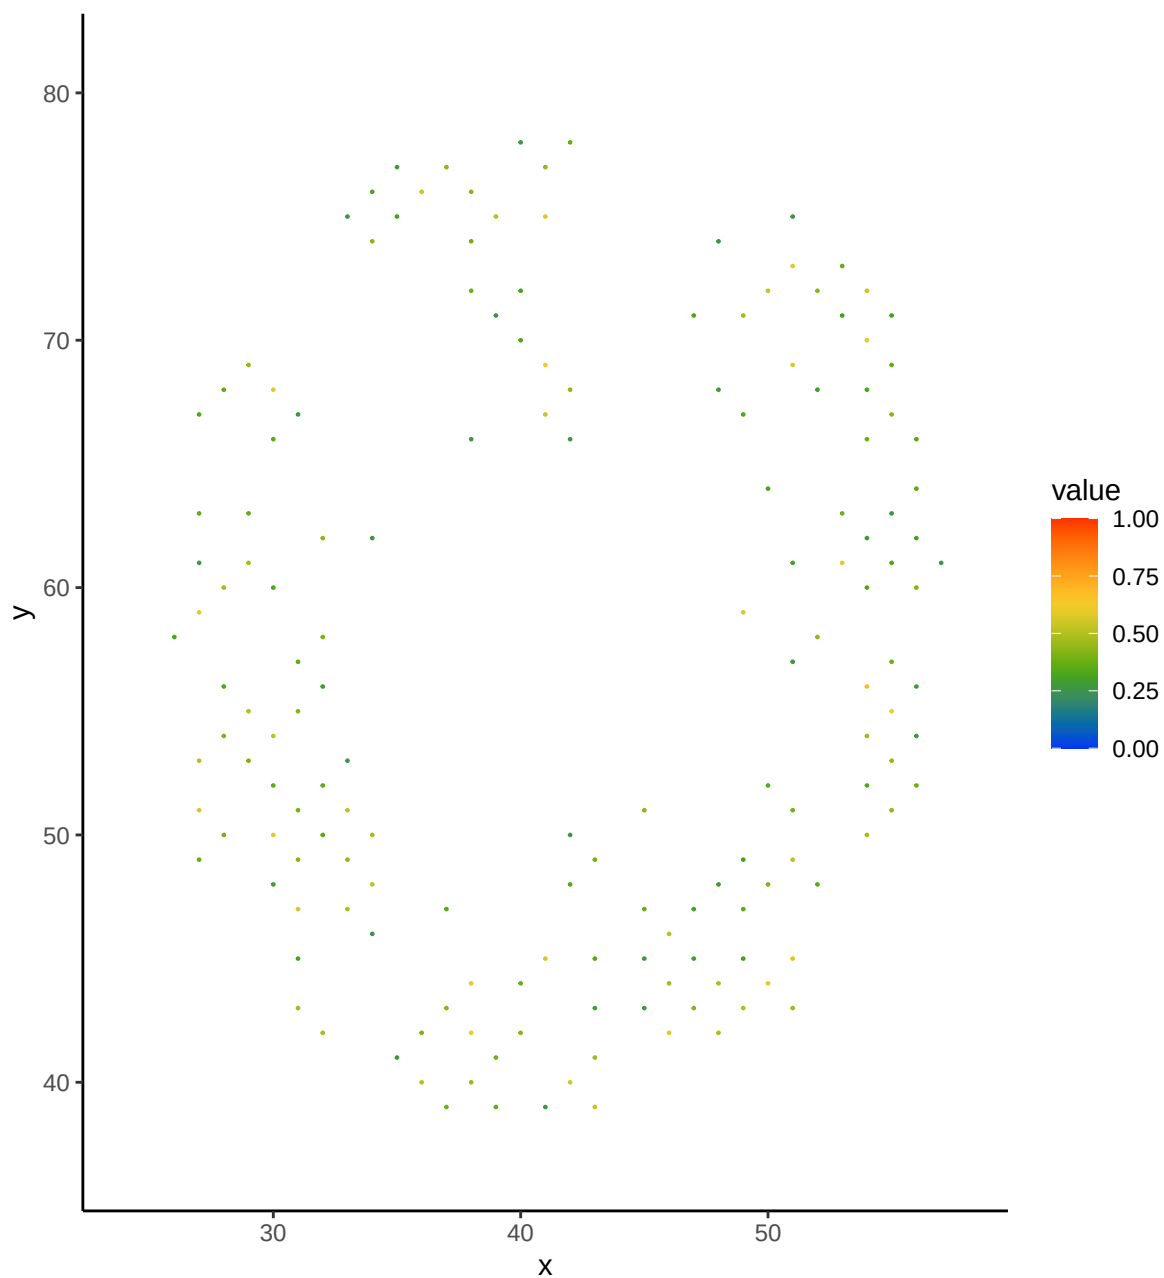

Ependymal cells

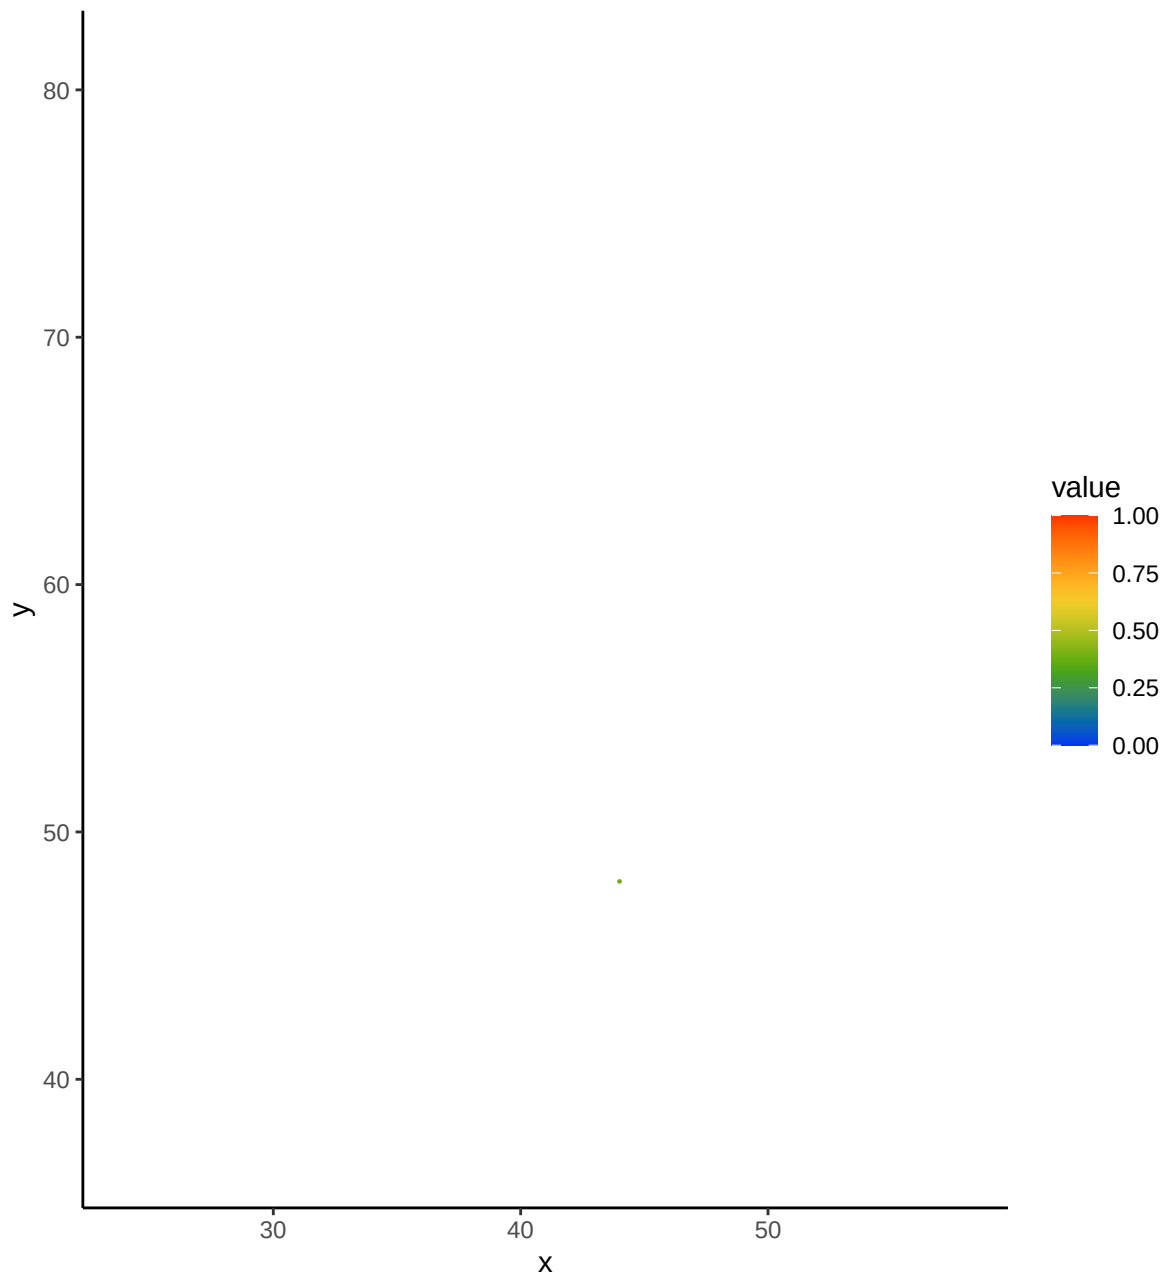

Mature oligodendrocytes (MOL)

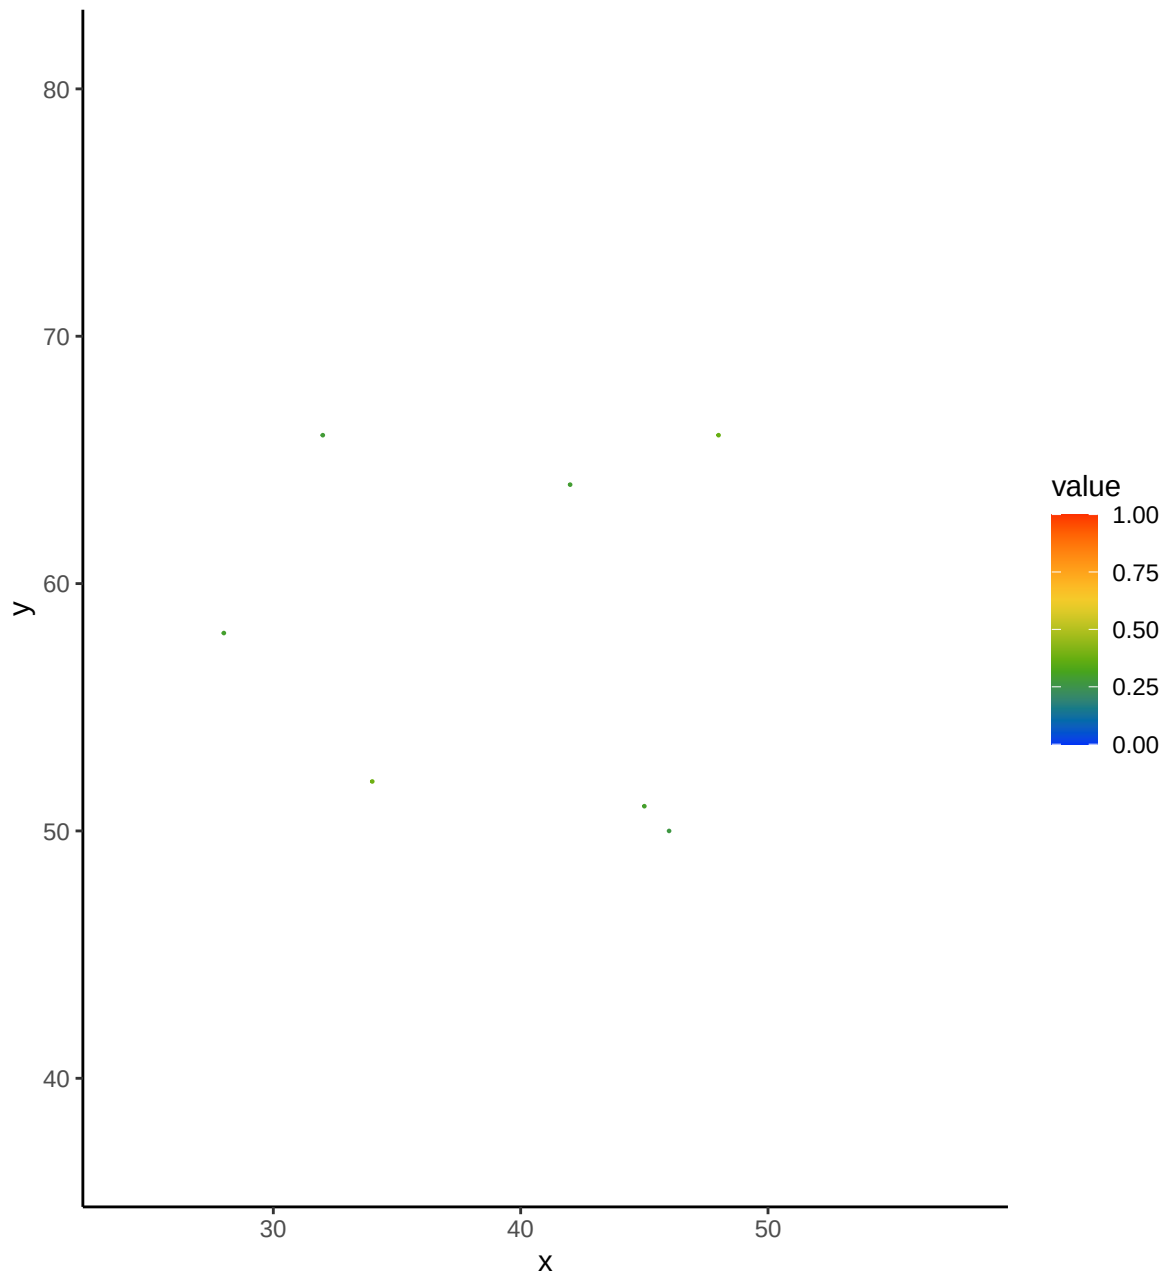

Mature oligodendrocytes (MOL), ischemic

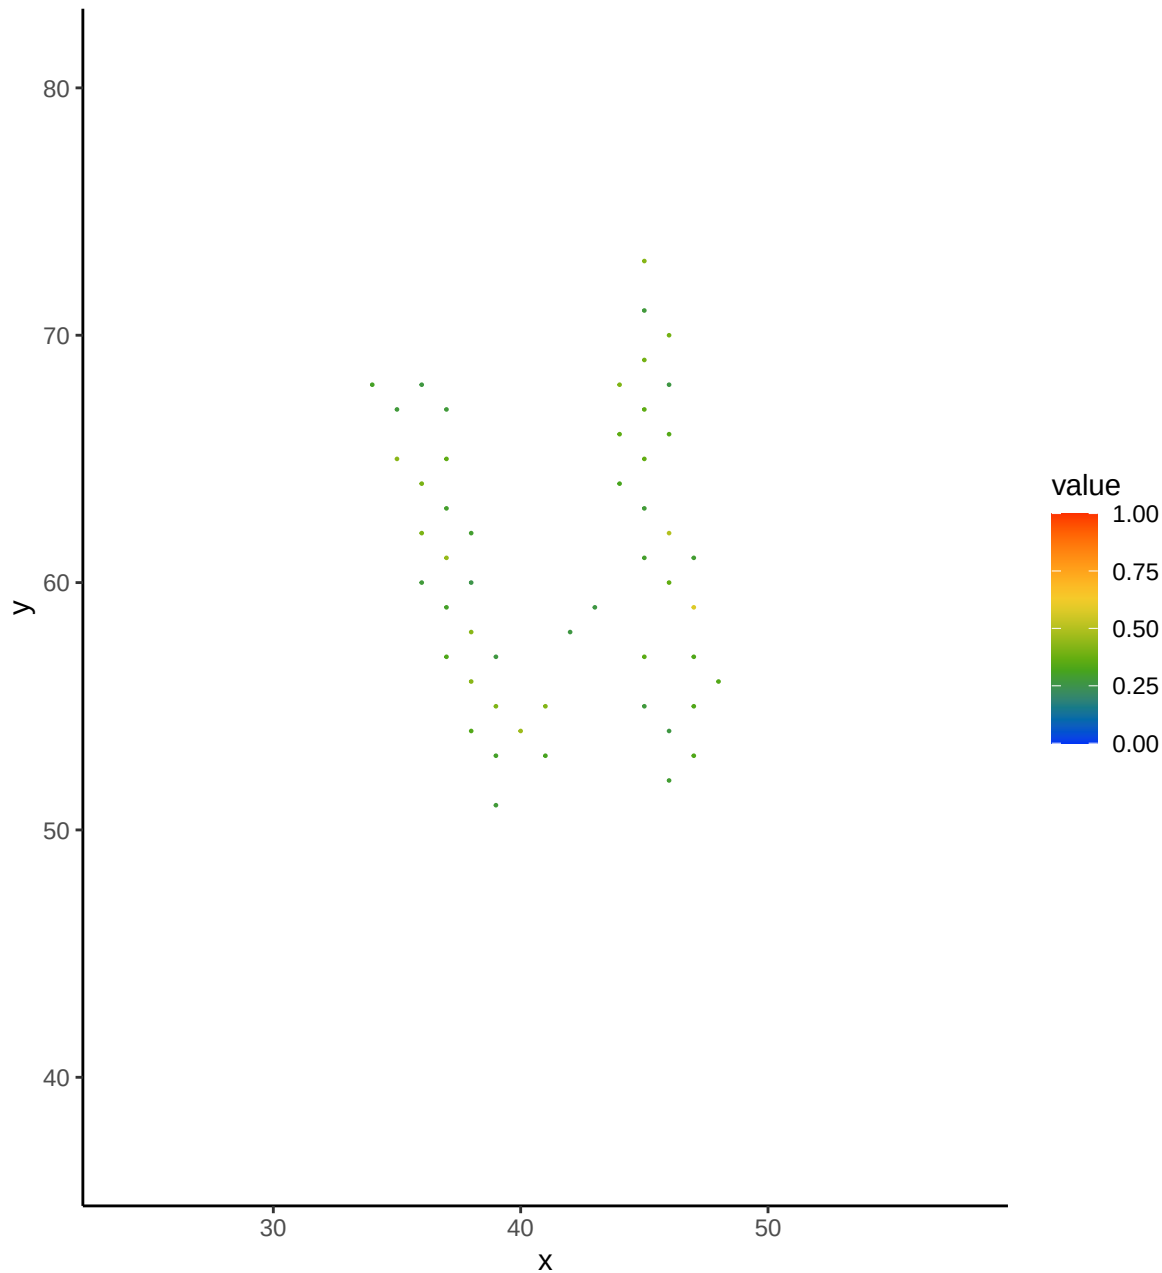

Microglia

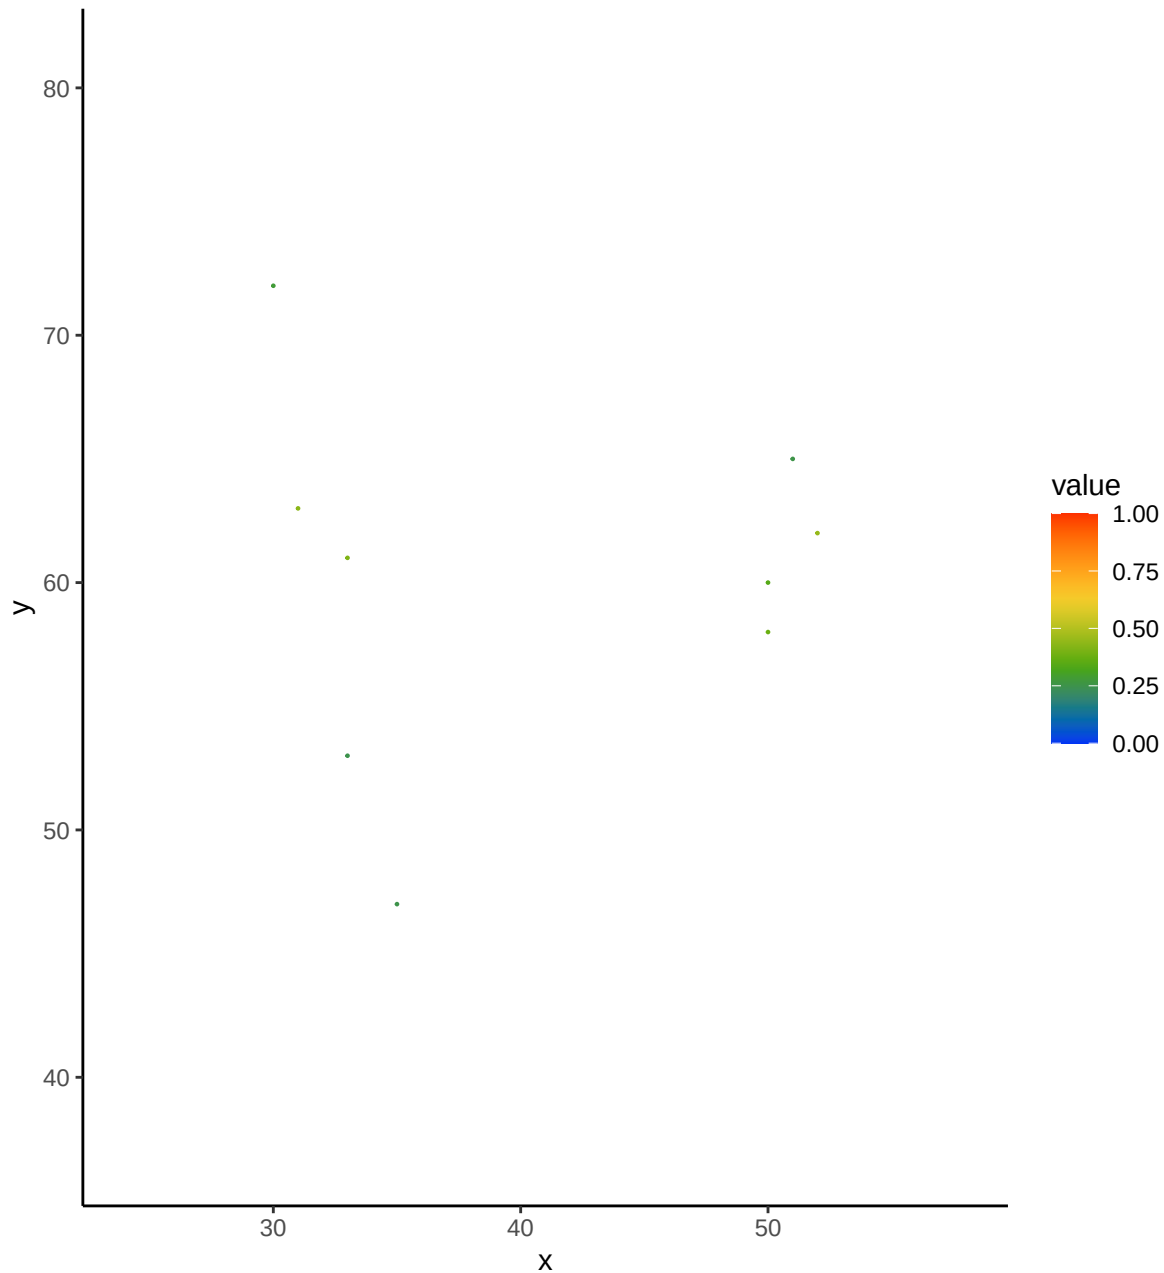

Myelin forming oligodendrocytes (MFOL)

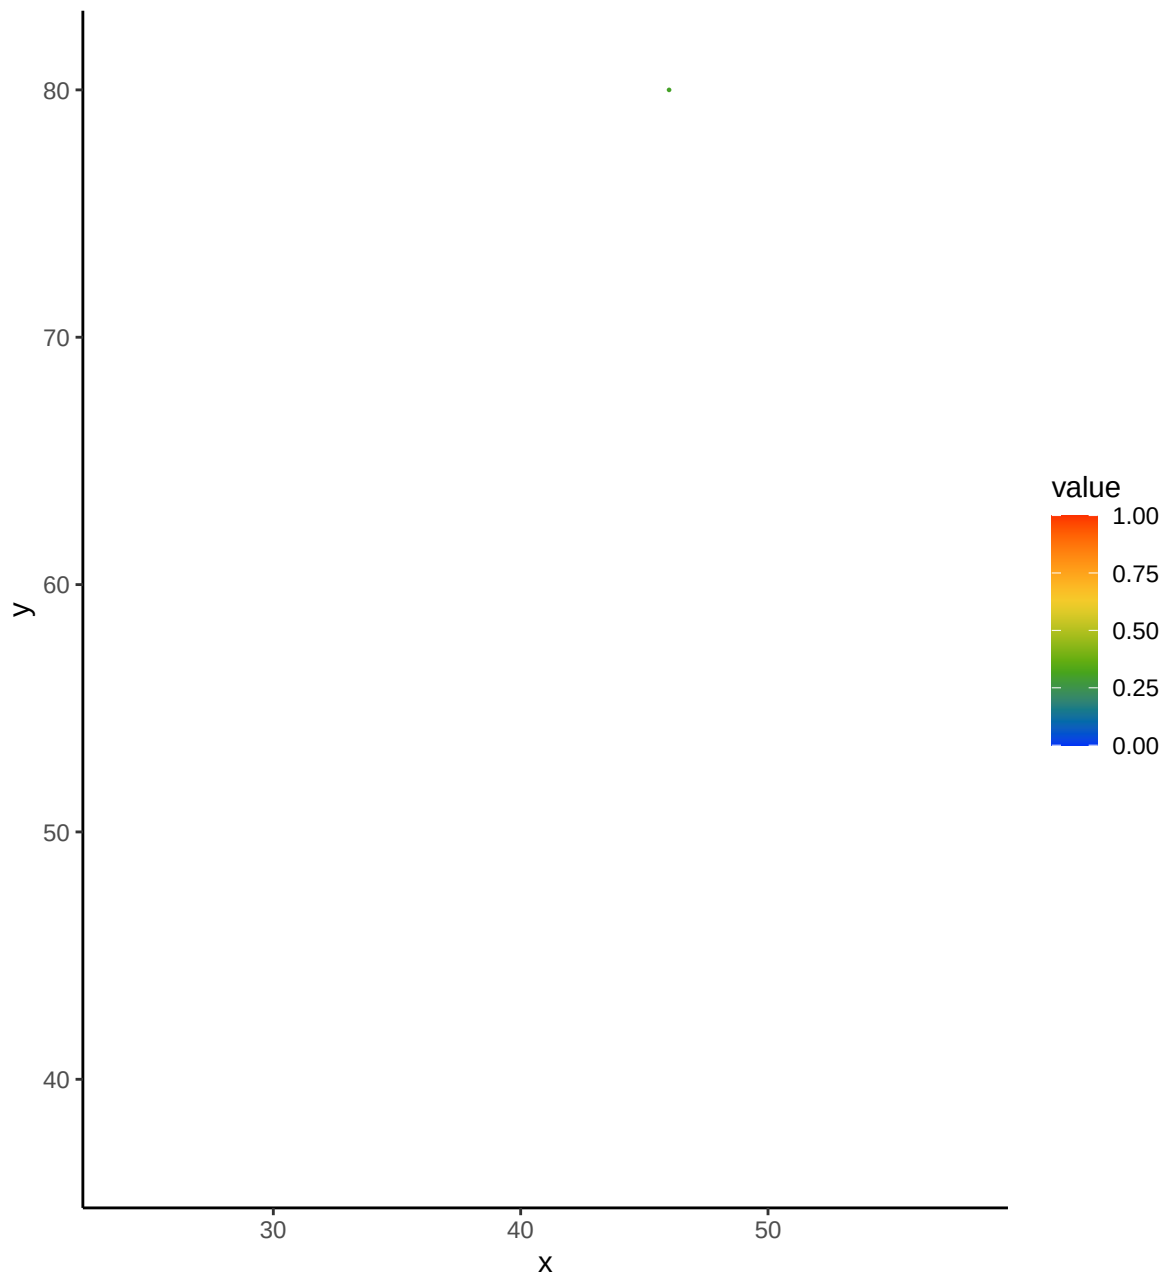

Neural stem cells

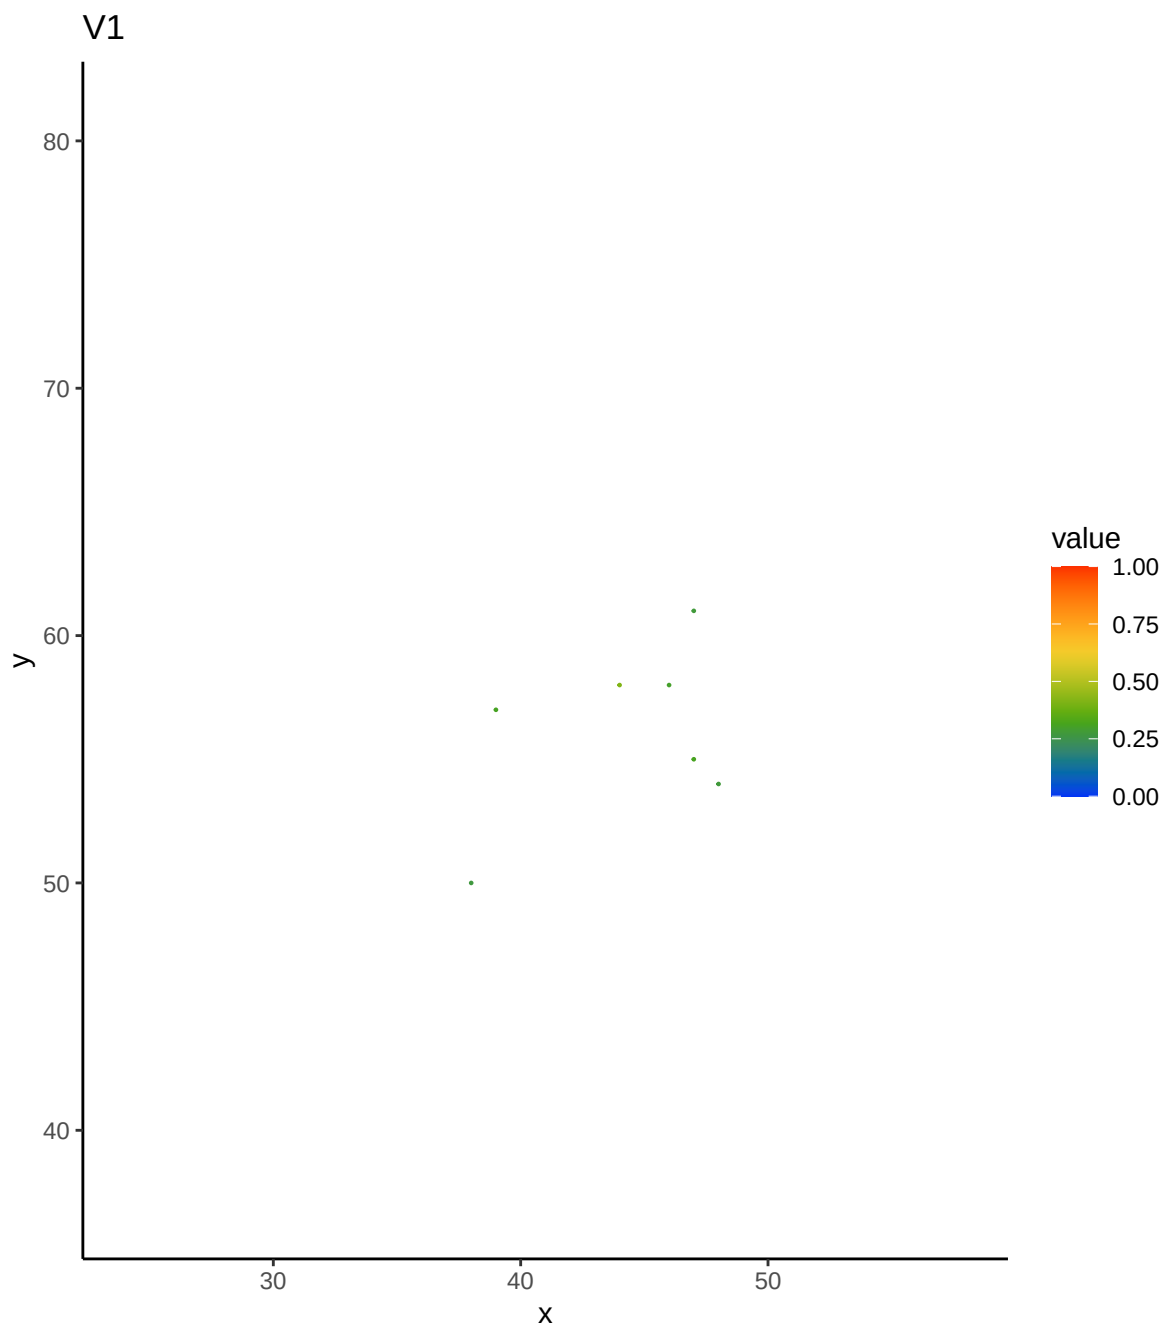

Newly formed oligodendrocytes (NFOL)

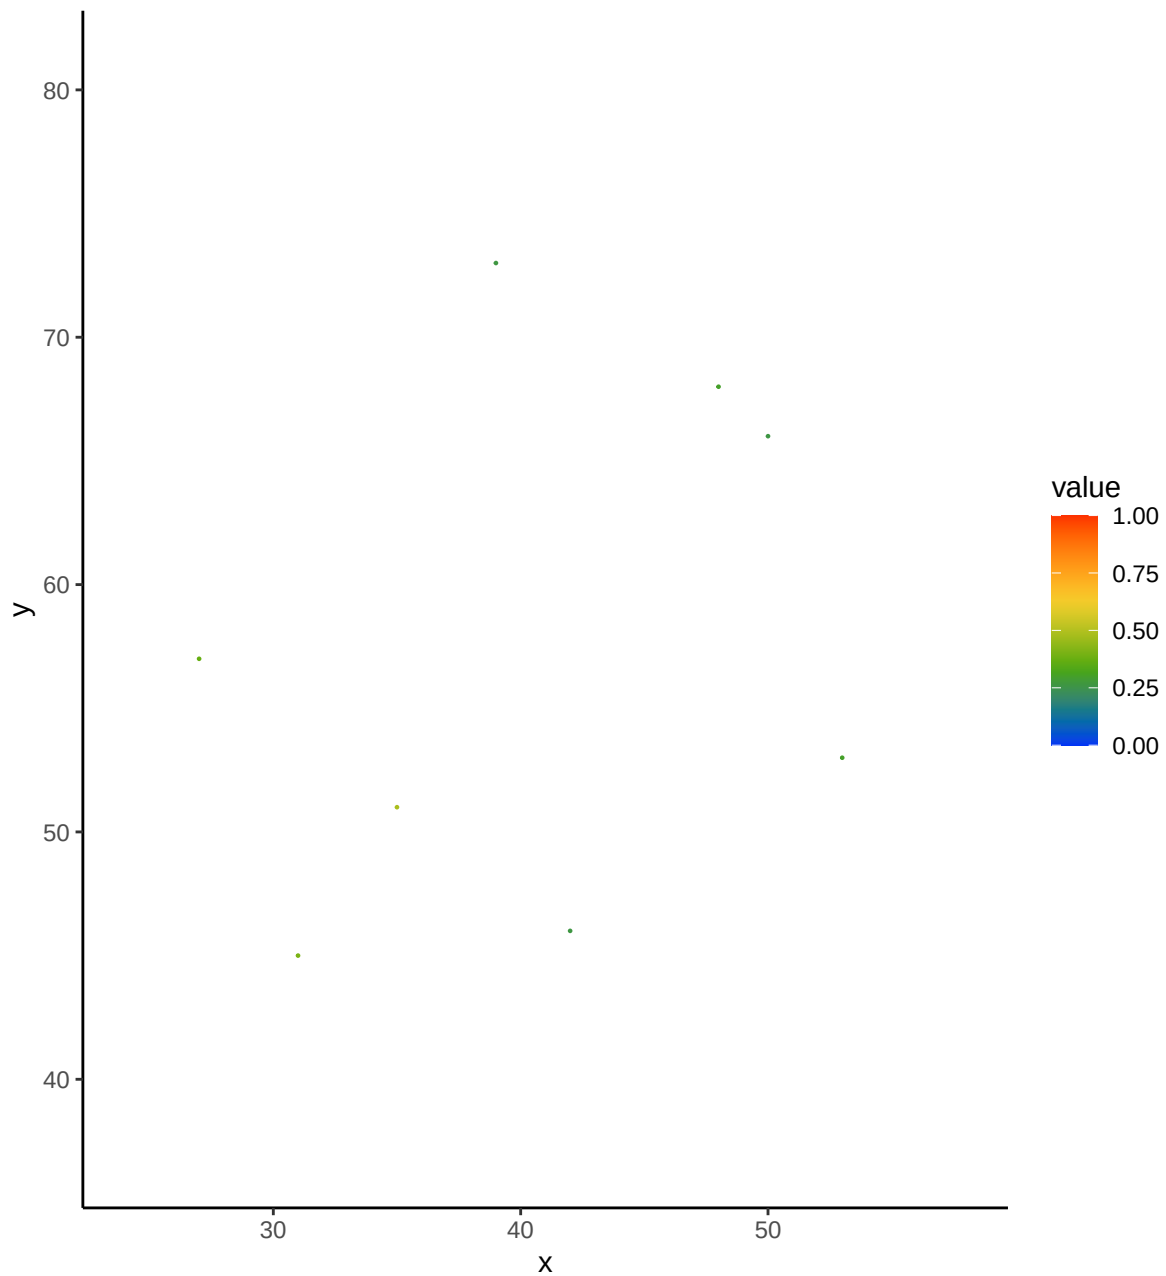

Pericytes

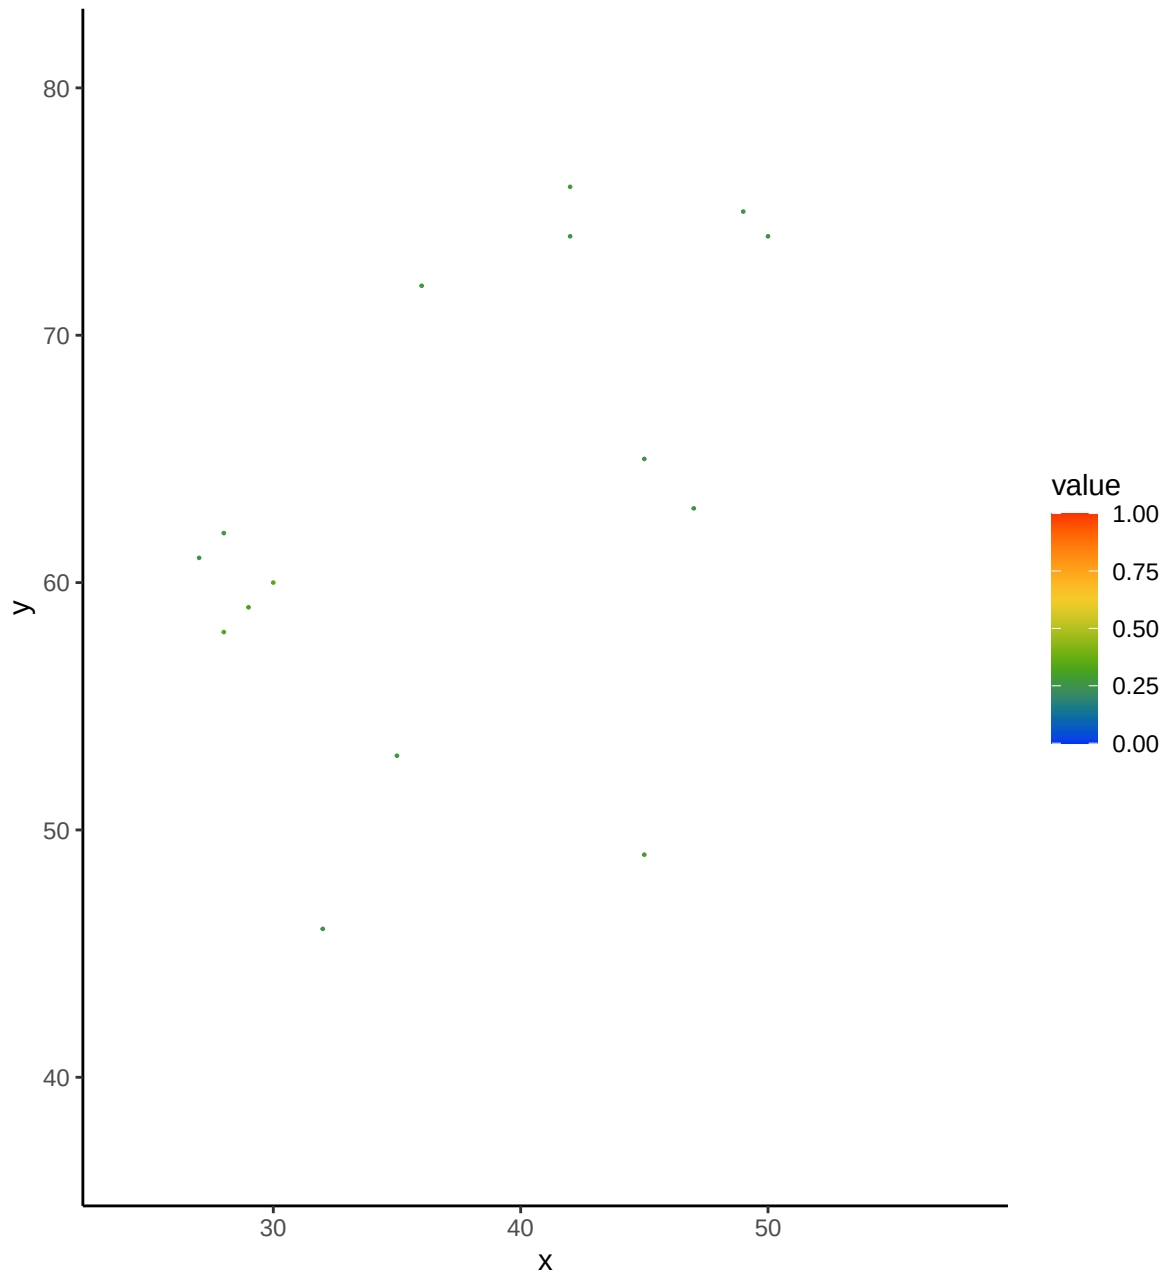

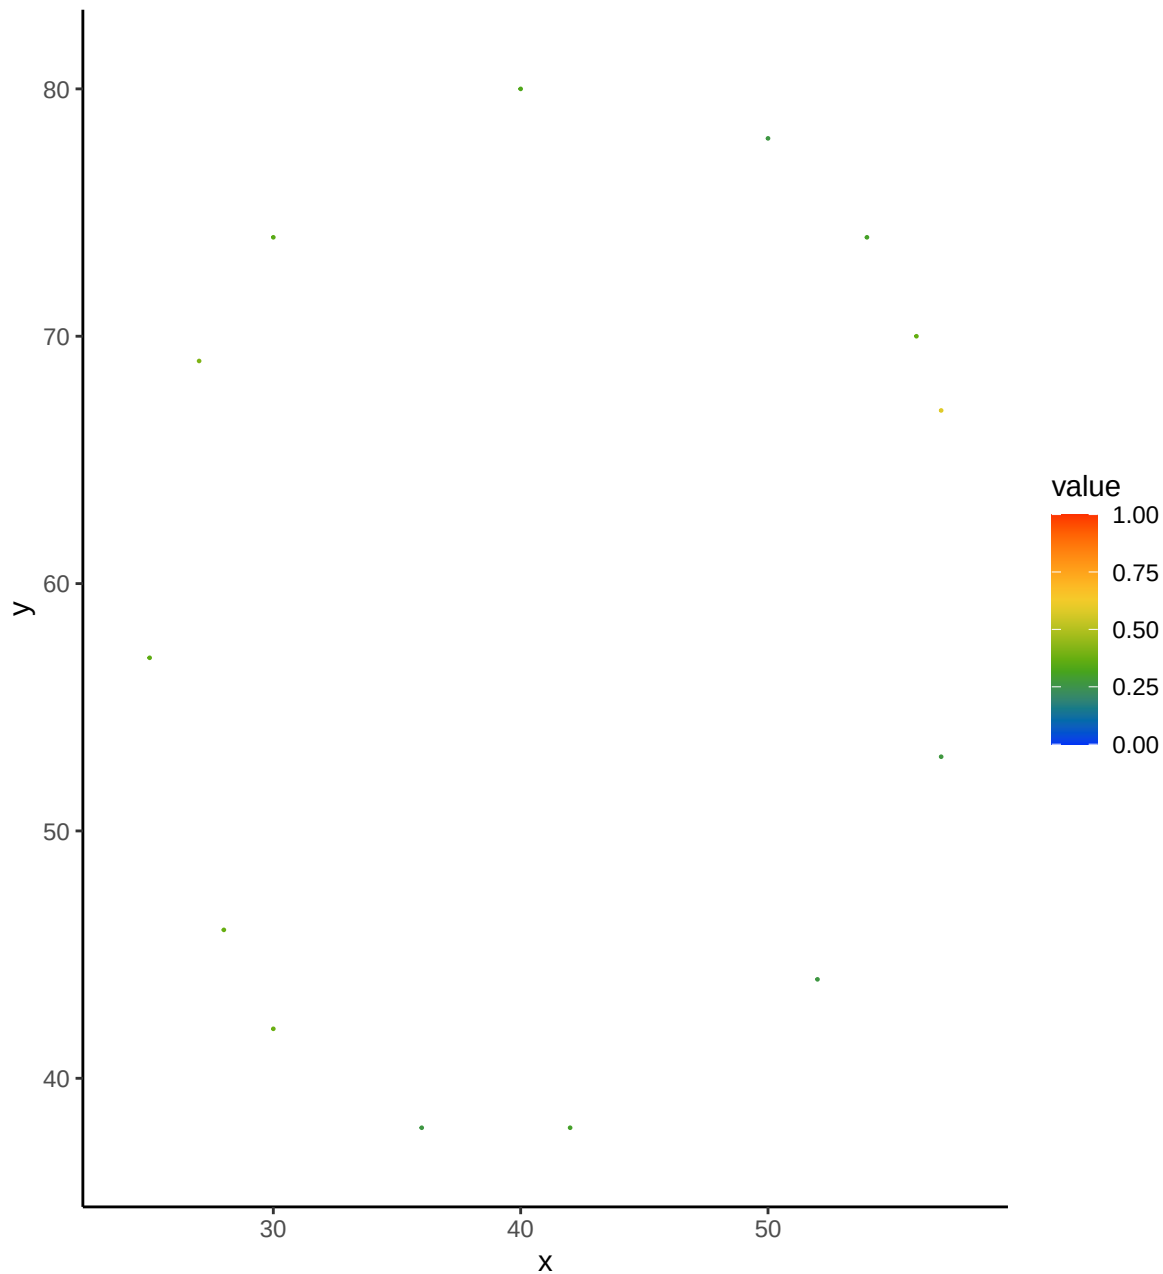

Vascular endothelial cells

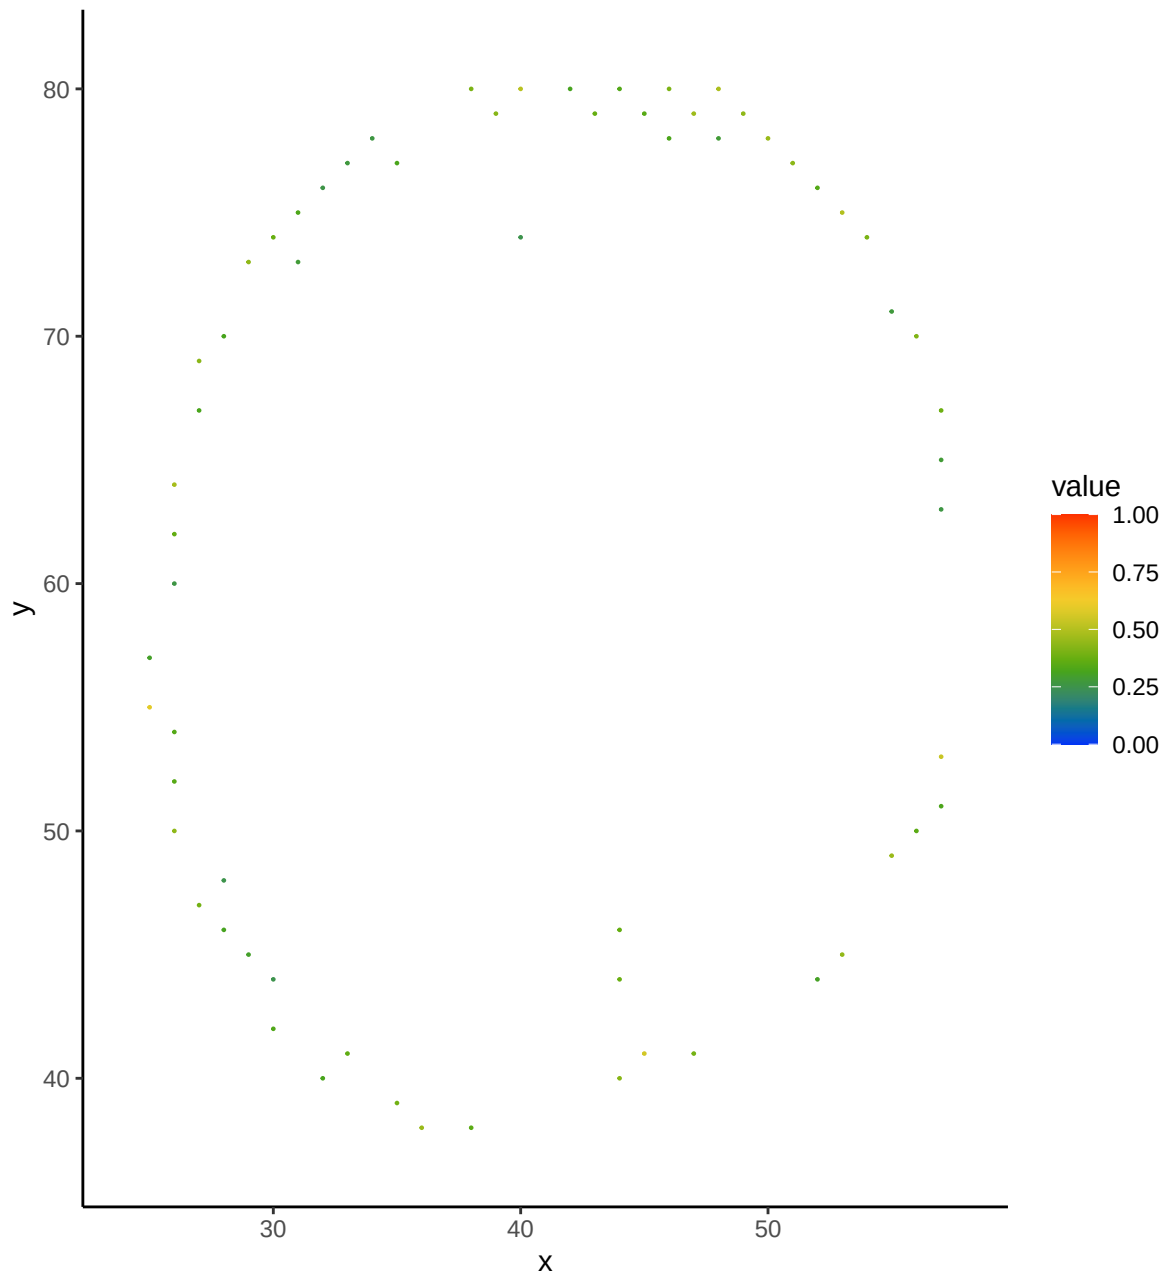

Vascular endothelial cells, venous

Vascular leptomeningeal cells

Vascular leptomeningeal cells, ECM forming
